ROMANS CAD
Software

Innovative design. Better than you think!

RCS 2D

(RCS 2D & 2D expert)

RCS 2D is not just another CAD software, it is a productive tool. RCS 2D keeps your know-how in order to share it among the company. Most of the new functions have been developed with our clients in order to speed up their process: the Moccasin constructions and the new Smart spring are the best examples among others.

RCS 2D is natively integrated with our PDM product RCS DM.

Reasons to use RCS 2D

Increase your design process

Capitalize your know-how

Is integrated in our PDM product : RCS DM

Release information

Complete parametric creation model

(margin, spring, symmetry, perpendicular, junction, motif, etc.)

Notches (round, sharp, wave, etc.)

Smart spring

(automatic spring, stretching, dynamic stretching, gusset, etc.)

Extract parts

(External, Internal, scan lines&parts, etc.)

Dependencies

(Dependencies, inherit dependencies, automatic pattern, automatic moccasin construction, etc.)

Advanced grading

(all defining rules (USA, UK, FR...), width, inherit rules, etc.)

Nesting (by category, etc.)
