Sede Legale:
21052 Busto Arsizio (Varese)
Via Zappellini, 6

Innovative design. Better than you think!

ROMANS CAD
Software

RCS BAG XXL

RCS XXL is not just another Cad software, it is a productive tool. RCS XXL keeps your know-how, in order to share it among the company.

Most of the new functions have been developed with our clients, in order to speed up their process; the *Dart*, the *Pleat* construction and the new *Gusset* are the best examples among others.

RCS Bag XXL is natively integrated with our PDM product RCS DM.

All data are stored on a common centralized database, which offers efficient monitoring and management of the model development process, including all the necessary report generation (production, parts, pre-costing...).

Reasons to use RCS Bag XXL

- Increase your design process
- Capitalize your know-how
- Integrated in PDM product: RCS DM

Release information

Complete parametric creation mode

(Margin, spring, symmetry, perpendicular, junction, motif, etc.)

Notches

(Round, sharp, wave, markers, etc.)

Smart spring

(Automatic spring, stretching, dynamic stretching, gusset, etc.)

Extract parts

(External, internal, scan lines & parts, etc.)

Dependencies

(Dependencies, inherit dependencies, automatic pattern, automatic moccasin construction, etc.)

SL

(Operations definition, by category, etc.)
